

Sun On My Side

Gogol Bordello

What was here now is gone
Up and down like everyone
Walk the earth in lonesome cry
But when the sun comes up
When the sun comes up
It will be on my side
It will be on my side

To the sound of wheels
All demons die
Rays of joy they multiply
Harmony you will be my bride
But when the sun comes up
I'll let out last breath
And slumber softly
Into the death

My half breed odyssey
Your orphan prophecy
Our destiny we will not hide
When the sun comes up
When the sun comes up
It will be on my side
It will be on your side

When the sun comes up
I'll let out last breath
And I'll slumber softly
Into the death
