

Troubled Friends

Gogol Bordello

We're replacing the groom
With a Mexican head honcho

Troubled friends
Troubled friend

Cumbia!

What do you do and what if it's true
When your best friend confesses to you
That he has become something of a dealer

What do you do and what if it's true
When your best friend confesses to you
That he has become a serial killer

What do you do, do you do
With all your troubled friends
Hide them from the cops?
[inaudible lyrics/Ukrainian/Gypsy]
What do you do, do you do
With all... troubled friends

Troubled friend
Troubled friend

What do you do, and what if it's true
When your best friend confesses to you
That he has become a serial killer

What do you do, and what if it's true
When your best friend confesses to you
That he has become a car dealer

What do you do, do you do
With all your troubled friends
Hide them from the cops

What do you do, do you do
With all, troubled friends

Troubled friend
Troubled friend

Cumbia!

What do you do, do you do
With all your troubled friends
Hide them from the cops

What do you do, do you do
With all, troubled friends
