

## Esoteric Surgery

Gojira

You have the power to heal yourself

All illness can be healed  
the cell regenerates  
disambiguated situation  
There is a secret code  
in the structure of the mind  
You have the power to heal yourself

Flesh bodies mute and blinded  
roaming uncertain, lost  
infected misinformed  
Releasing a black enormous insect  
out from the chest  
archaic form disease

Esoteric surgery a dissection of the soul  
Unsuspected precise power  
on the wounded astral body  
projected beam of light

All illness can be healed  
the cell regenerates  
disambiguated situation  
There is a secret code  
in the structure of the mind  
You have the power to heal yourself

Suspended floating in empty spaces  
Descending swift like a fire running down  
Obstruction disintegration life force  
overcoming all circumstances  
Release the pain
