

## Stranded

Gojira

A growing sickness in the heart  
Defective, lack of control  
The cure is somewhere in the silence  
But I'm crushed by the noise inside

Don't lock the door on me  
You'd kill me, face down, dead  
Another part of me falls for you

Another day in the dark  
Stranded in the night, stranded in the cold

Don't lock the door on me  
You'd kill me, face down, dead  
Another point of view gone to waste  
Please hear me out!  
You kill me, face down, dead  
Another day in the dark

Leave the moment alone
