

## A Sound I Never Heard

Golden Earring

I'm kicking down the road  
I got my top hat on  
With my head in overload  
I heard a radio song

There was something in the air  
I think I know it well  
Watchin' everybody stare  
You know I never tell

You knocked me to the floor  
With a sound I've never heard  
You knocked me to the floor  
With a sound I've never heard  
With a sound I've never heard

I was walking down the street  
Saw you sneakin' out your house  
Now who you're gonna meet  
In the criminal hour  
Saw you sneak right through the door  
You whispered just a word  
Then you knocked me to the floor  
With a sound I never heard

You knocked me to the floor  
With a sound I've never heard  
You knocked me to the floor  
With a sound I've never heard  
With a sound I've never heard
