

## Beautiful Blue

## Golden Earring

They got gadgets for sale, pretty girls  
Fat motorcycles and fast cars too  
They got the coolest fashion in fishing gear  
Everybody's hooked on cannibal food  
Everybody's hooked on cannibal food  
Everybody's hooked on cannibal food oh yeah

They all live together in this crazy town  
Wide awake and waiting for you  
G-strings up their pretty cracks  
And pussies shaved as smooth as glass  
Pussies shaved as smooth as glass  
Pussies shaved as smooth as glass oh yeah

The only way to save your life  
Is to run away with the speed of light  
To run away with the speed of light  
To run away with the speed of light  
This place was made to kill you  
It's name was meant to fool you

Beautiful blue

They got nightclubs on fire, say no more  
Sick individuals in stereo  
The next thing to crackin' is expensive fear  
Everybody diggin' for the virgin blow  
Everybody diggin' for the virgin blow  
Everybody diggin' for the virgin blow oh yeah

Living together in this crazy world  
Wide awake and waitin' for you  
They got giant dicks hanging down their slacks  
And smiles that swing like modern jazz  
Smiles that swing like modern jazz  
Smiles that swing like modern jazz oh yeah

Well the only way to save your life  
Is to run away with the speed of light  
Is to run away with the speed of light  
Is to run away with the speed of light  
This place was meant to kill you  
It's name was made to fool you

Beautiful blue, beautiful blue  
Beautiful blue, beautiful blue  
Aha, aha, aha, aha
