

## Burning Stuntman

Golden Earring

Specialize in danger, I'm from Niagara Falls  
And now I sit here waitin'  
Like an idiot for your call  
Words cannot explain  
That rattlesnake in my bones  
Guess it's time to face the truth  
I stand here licked by love  
And in the name of love

I wanna go go go, like a burning stuntman

I fry exposed to fire of course  
Choke up while I'm breathin' smoke  
Come on quench the fire inside my soul  
I wanna go go go

Slumberin' volcano, a bout to explode  
Puttin' on a smile and then  
You're takin' of your clothes  
Words cannot explain  
My heart's red pepper blue  
And my blood goes boilin'  
Every time I look at you  
I'm in danger, how about you

I wanna go go go, like a burning stuntman

You fry exposed to fire of course  
Like a flame whisperin' to a moth  
Come on quench the fire inside my heart

I wanna go go go  
Like a burning stuntman  
Like a burning stuntman.....
