

Chargin' Up My Batteries

Golden Earring

Well I couldn't live if I don't see a miracle happen
Stayin' up waitin' here with you
And I do believe in a mystery that needs unraveling
Stayin' up being here with you, in tune
Well, I'm runnin' around
In circles painted on the ground

I don't know how they got us here
I don't know why it don't come clear
Confession that I have to make
Expression that I have to fake
This situation on the other hand
Is a matter I cannot comprehend
When plugs don't spark in the dark
I'm chargin' up my batteries, chargin' up my batteries
Hey now, gimme full capacity
Chargin' up my batteries
Hey now, any day now

It's no tragedy but I hear the good times fadin'
Like a spotlight changin' green to blue
Yes I do believe something better be happenin'
Before the night comes through
Ain't it true, yeah it's true

Well, I'm runnin' around
In circles painted on the ground
I don't know how they got us here
I don't know why it don't come clear
Confession that I have to make
Expression that I have to fake
This situation on the other hand
Is a matter I cannot comprehend
When plugs don't spark in the dark
I'm chargin' up my batteries, chargin' up my batteries
Hey now, gimme full capacity
Chargin' up my batteries
Hey now, any day now
