

## Don't Stop The Show

Golden Earring

You're in for a cold shower  
The man's gonna cut the power  
Don't stop the show  
Come on baby you can fan the fire  
Let the flame burn a little higher  
Don't stop the show  
Yeah well in case of emergency  
I'm gonna send the kung-fu roadie  
Don't stop the show  
Time time who's got the time  
Time time we've got the time  
We got about an hour to get things right  
Keep that rock 'n roll music goin'  
Through the long long hot night  
I'm ready willing and able  
I'm gonna spit it all over your table  
Don't stop the show
