## **Don't Stop The Show**

**Golden Earring** 

You're in for a cold shower The man's gonna cut the power Don't stop the show Come on baby you can fan the fire Let the flame burn a little higher Don't stop the show Yeah well in case of emergency I'm gonna send the kung-fu roadie Don't stop the show Time time who's got the time Time time we've got the time We got about an hour to get things right Keep that rock 'n roll music goin' Through the long long hot night I'm ready willing and able I'm gonna spit it all over your table Don't stop the show
