

Fluid Conduction

Golden Earring

I've been sleepin' all day, slummin' all night
In a 44 hour sedation
Since the day you cut me outta your life
The night I killed your patience

Always try to lie to you
The truth is that I love you
Need you more than anything
Without you I discover
I'm a maniac and a menace
Headin' for destruction

Your lips I miss,
Your tears, your hips
Your piss, your blood, the way you function
Maybe I should thank some God
For your amazing fluid conduction

It was Max, the king of facts
He made me steal for your number
Promised not to tell on him
But you know me, I'm a sucker

Your lips I miss,
Your tears, your hips
Your piss, your blood,
The way you function
Maybe I should thank some God
For your amazing fluid conduction
