I Don't Wanna Be Nobody Else

Golden Earring

Somebody asked me funny questions If you could do it all over again Would you go for the same thing And if you could be somebody else Would you hesitate, would you go ahead and change You're not an animal But if you could choose from all the zoo's Which beast would you be I don't wanna be nobody else I don't wanna be nowhere else I wouldn't be with you I wanna be with you If you could be livin' in a different age A different time in history Would you buy a time machine And if they vote you for president Would you go to walk A bigger walk or would you make amends
