I've Just Lost Somebody

Golden Earring

She came down from far away and smiled at me In one moment I found out how love can be Then I realized that she had gone again I've just lost somebody A-ha, please let me dream

Though I know that love ever happened this way I'll be here untill she will return one day Here low, I am dreaming, she must appear again I've just lost somebody A-ha, please let me dream

She came down from far away and smiled at me In one moment I found out how love can be Then I realized that she had gone again I've just lost somebody A-ha, please let me dream
