

If You Leave Me

Golden Earring

Baby if you leave me
I won't know what to do
So darling do believe me
Oh my heart belongs to you
I know they say a lot of things
About me and what I've done
For baby that's our love and now
My love has changed and you know how
Think what you do before you treat me cruel

Baby if you leave me
You'll find out that you are wrong
But though you still deceive me
You will find my love is strong
I know they say a lot of things
About me and what I've done
For baby that's our love and now
My love has changed and you know how
Think what you do before you treat me cruel

Honey I need you
Every day I need you
It's like a thrill
So please don't be so mean
