## Golden Earring

Golden Earring

Lucky Number

Lucky numbers, comin' my way

Super vision, mile away

It's one for alone and two for me and you

And two and three have been singing

Is it true that heaven is next door

Just about three steps climbing

We all know what four stamps are for

With you in time swamping partners

Nothing to jive, just give me five

Let's drown in holy water

Lucky numbers, lottery

Super vision, wait for me

Six and stones, back my loans

And pay the debts I carry

Save that seven just for me

I find it failed me rarely

Roll an eight on wheels of faith

Along the course of a dead man's knee

Bill me nine, I won't say no

I like a Laffy Daffy

Refrain

Place the bet, spin roulette, last time for Bingo

Cash a cheque, stick out your neck, play joker Tango

Lend your ears, take a pair of wheels. Lucky number Lingo

And when you loose, you curse the fortune game

Blame the loss on dames and dames

Find yourself where you began

Worshiping your number one

Place the bet, spin roulette, last time for Bingo

Cash a cheque, stick out your neck, play joker Tango

Lend your ears, take a pair of wheels. Lucky number Lingo

Lucky numbers, last a day

Super vision, now obey

Number ten won't listen at all

Search for getting even

Hear the call, help me fall

Ruther on eleven

Just leave twelve to itself

Welcome Mister Mean

To this hotel, a special warm

Talkin' about thirteen

Place the bet, spin roulette, last time for Bingo
