My Town

Golden Earring

My town, is sittin' on the ocean
My town, paradise livin'
My town, my town is alright
I've got fine friends, livin' 'round the corner
Crazy friends, party every night
My friend, my friend, is alright

I'll give you some time to make up your mind
Give you some time to pack a samsonite
Gotta start lookin' for the signs
The signs leadin' to my town

We've got big girls sittin' in the red light
Pretty girls bakin' in the sunlight
Our girls, our girls are alright
I got no fear for the cops and the robber
I drink beer with the drunks and the dealer
Our town, my town is alright

Give me some time to make up your mind
Give me some time to pack a samsonite
We're all gonna set this city on fire
Come alive, down in my town
How about your town, baby
How about your town, baby
How about, how about......
My town, is floatin' down the river
My town, lies dreamin' in the valley
My town, my town is alright
We've got nightclubs, discotheques, theatres
Shoeshine and cheap parking meters
We've got hotels, motels, a line

Give you some time to make up your mind
Give you some time with a samsonite
We're gonna set this city on fire
We're on fire, down in my town
Get down to my town
