

## Time's Up

Golden Earring

We '(ve) been friends for a long term run  
Shared the goods and we shared the fun  
But it's true that nobody knows  
And no one can tell  
Why in heaven do these moments come  
Yeah, who in heaven lets these moments come  
When the truth gets twisted  
And somebody's ringin' hell's bell  
Yeah we seen some high times  
And it's too bad one's always sad  
You got 10 seconds baby and then I'm gone  
Gimme one reason for stayin' home

Time's up, I hope you make a million  
And have a lot of pretty children  
But this is my song gotta say solong  
I'm always hopin' for the best in life  
I try to put it right between my lines  
But somehow you been missin' the clues  
And you got me feelin' used  
Yeah, we seen some high times  
There's more to come, where they come from  
You got 10 seconds baby and then I'm gone  
Gimme one reason for hangin' on

Time's up, I hope you make a million  
And have a lot of pretty children  
And this is my song gotta say solong  
Time's up, I hope you get the picture  
For your case, there ain't no cure  
I'll be free and you'll be fine  
Time's up, I hope you make a million  
And have a lot of pretty children  
But this is my song gotta say solong  
Time's up  
So long, bye, bye
