

# Turn The World Around

Golden Earring

I believe that all around  
We're all waiting for a sound  
That will break the barriers down  
And will make us all feel better  
After all the madness' gone  
After all I feel it's coming  
There's a slogan on the wall  
Like a finger on a trigger  
There's a truth behind it all  
I believe it's getting bigger  
But it's all up to you, and it's all up to me  
Yeah it's all up to me

Your sweet talking babe, won't turn the world around  
Meet me underground, turn the world around  
Climb a mountain yeah, cry me an ocean too  
Turn the world around, turn the world around  
There's no problem babe, you're right, I'm wrong  
Let's strike a bargain, 'cause together we're strong

All your sense, all your love  
Can't stop the fire from above  
Don't you know, when I go  
You're gonna go too  
Let's turn the world around

Darlin' daughter, I've been told  
Gettin' younger, turnin' old  
Hides a moment, caught in time  
In a mirror that's gone blind  
I can see inside my minds' eye  
We may get the future right  
There's a slogan on the wall  
Like a finger on a trigger  
There's a truth behind it all  
Everyday it's getting bigger  
But it's all up to you  
And it's all up to me

Don't say impossible, when it's possible  
We're responsible, let's turn the world around  
Only one light to follow, only one dream to share  
Let's strike a bargain, it's gonna get us there

All your sense, all your love.....
