

## Best for me

## Golden Resurrection

You are always by my side...  
You are always by my side...

Lots of actions in the pipeline  
Yeah I need to sort it out  
Make a change to see the balance  
Yeah I know it's hard to work it out

Live and learn  
Get down to basics  
I lay my life into your hands

You are always by my side  
Until the end of time  
I'm not afraid  
You always want the best for me  
You are always by my side  
Until the end of time  
I'm not afraid  
You always want the best for me

Searching for a fast solution  
Don't fool yourself  
Be wise, go an extra mile  
Give time for your own reflections  
Build strong and slow, you'll get it all

Live and learn  
Get down to basics  
I lay my life into your hands

You are always by my side  
Until the end of time  
I'm not afraid  
You always want the best for me  
You are always by my side  
Until the end of time  
I'm not afraid  
You always want the best for me

Live and learn  
Get down to basics  
I lay my life into your hands

You are always by my side  
Until the end of time  
I'm not afraid  
You always want the best for me  
You are always by my side  
Until the end of time  
I'm not afraid  
You always want the best for me  
You are...  
You are always by my side  
always want the best for me  
You!!!  
I'm not afraid

You always want the best for me  
You...
