

## Generation of the brave

## Golden Resurrection

See my children  
They're playing their games  
So full of life, so innocent  
Created by the master's hand  
I know this time is running so fast  
Let me capture this day and make it last forever

Listen, you're the future we have  
The new generation of the brave

Hold on, hold on  
You're the children of tomorrow  
Hold on and never giving up, my child  
Hold on, hold on  
You're the children of tomorrow  
Hold on and never giving up, my child

(My) little children, I know there will come a day  
When I can't protect you  
But the angels are there  
Spreading their wings of love (around)

You're the future we have  
(The new) generation of the brave

Hold on, hold on  
You're the children of tomorrow  
Hold on and never giving up, my child  
Hold on, hold on  
You're the children of tomorrow  
Hold on and never giving up, my child

Read the Bible  
You'll find the truth  
God will always care for you  
Eternal love you will find and you get  
Inner peace of mind

You're the future we have  
(The new) generation of the brave

Hold on, hold on  
You're the children of tomorrow  
Hold on and never giving up, my child  
Hold on, hold on  
You're the children of tomorrow  
Hold on and never giving up, my child

Hold on, generation of the... brave!!!
