

# Glory to my king

## Golden Resurrection

Glory to my King!!!

Welcome to my house  
Don't be afraid my friend  
I know it's safe here  
And you are invited

The world's getting colder  
You're looking for love that lasts  
You're in the right place and you are invited

He's been there  
All along your way  
Just open up your heart  
He's breathing life into your soul  
He is the Living God  
The rock that never falls

I'm standing here  
Sing glory to my King  
He is my everything  
No turning back  
Darkness will fade away  
Glory to my King  
Glory to my King

The Holy Spirit will guide you and me today  
we are the sons and daughters of eternity

He's been there  
All along your way  
Just open up your heart  
He's breathing life into your soul  
He is the Living God  
The rock that never falls

I'm standing here  
Sing glory to my King  
He is my everything  
No turning back  
Darkness will fade away  
Glory to my King

I'm standing here  
Sing glory to my King  
He is my everything  
No turning back  
Darkness will fade away  
Glory to my King

I'm standing here  
Sing glory to my King  
He is my everything  
No turning back  
Darkness will fade away  
Glory to my King  
Glory to my King

Glory... my King...
