

V

Golden Smog

When I was down she was full of advice
'Cause she'd been there once or twice
With a ring on the side of her nose
Wearing other people's clothes
She had her highs and she had her lows
In between she show
When she smiled everything else died
V let off a good vibe

As if in a dream
The one and only V
That's a feel of dream
The one and only V

Buying shots and breaking hearts
She used to wait on us down at the bar
Never took as much as she gave
Is still giving to this day
Staying up half the night
Mood swing yet we cried
On a cold December day
V up and went away

As if in a dream
The one and only V
That's a feel of dream
The one and only V

Staying up half the night
Mood swing yet we cried
On a cold December day
V up and went away

As if in a dream
The one and only V
That's a feel of dream
The one and only V
