

## I Want

Goldfinger

Don't want to spend my time, wishing you were here  
Don't want to spend my time alone  
Don't want to waste my life, dwelling on the past  
Don't want to lock myself at home

'Cause I want, I need, nothing less than you  
I want nothing else at all

Don't want to make excuses  
Explaining it away  
Just want to spend my time with you

Don't want to walk on ice  
Don't want to live on edge  
'Cause on the edge  
I'm looking down

I want more, I want more

Don't want to spend my time  
Wishing you were here  
Don't want to spend my time alone
