Goldfinger

Here I am and I found you
I thought I'd never be here
I told myself so many times
I have to let you go

But here I am and you're not
Here I am alone

All I want
is a picture for me to look at
All I need
for me to look at you when you're not there

I'm lost again and I found you
and I'm so glad you're here
I can't believe I deserve you
I thought I'd let you know

That here I am and you're not
Here I am alone

(3x):
All I want
is a picture for me to look at
All I need
for me to look at you when you're not there
