Goldfrapp

I felt it come  
A blade of autumn alive  
The amber shapes  
Of sunset dance on the wall

I step outside  
No boat, no sign of you there  
In the endlessness  
Two worlds looking back at me now

Oh I've, never seen  
The winter lights on the lake

I want to swim  
Your silk black skin to the floor  
On lava moons  
A song of hooves playing loud

The day you came  
They took your name they renounced  
Took your right, your life  
Your heart can't wait forever

Oh I've, never seen  
The winter lights on the lake  
Oh I've, never seen  
The winter lights on the lake

I want to swim  
Your silk black skin to the floor  
On lava moons  
A song of hooves playing loud
