

## Black Cherry

Goldfrapp

How can it be? I can taste you now  
How can I see when you're everything?

All my world in one grain of sand  
And I've blown it  
All my world in one grain of sand  
And you own it

Black cherry, black cherry, stone  
Black cherry, black cherry

Hearing you say it, I could die  
Trembling star, just reminds me

All my world in one grain of sand  
And I've blown it  
All my world in one grain of sand  
And you own it

Black cherry, black cherry, stone  
Black cherry, black cherry

Excite me, ignite me  
Oh and you know  
I miss you, I kiss you  
Oh and you know

Black cherry, black cherry, stone  
Black cherry, black cherry

Excite me, ignite me  
Oh and you know  
I miss you, I kiss you  
Oh and you know
