Black Cherry

Goldfrapp

How can it be? I can taste you now How can I see when you're everything?

All my world in one grain of sand And I've blown it All my world in one grain of sand And you own it

Black cherry, black cherry, stone Black cherry, black cherry

Hearing you say it, I could die Trembling star, just reminds me

All my world in one grain of sand And I've blown it
All my world in one grain of sand And you own it

Black cherry, black cherry, stone Black cherry, black cherry

Excite me, ignite me
Oh and you know
I miss you, I kiss you
Oh and you know

Black cherry, black cherry, stone Black cherry, black cherry

Excite me, ignite me
Oh and you know
I miss you, I kiss you
Oh and you know
