

Eat Yourself

Goldfrapp

If you'd only cut
So no doubt the blade is deep
You could long your life
Seated on that land
You went south on the train
She wore plastic boots for rain
And you crawl along the floor in
your dream dear, caught lonely

Who will I be when I'm with you again
Silver jet in the sky
You are the pain
Got a song, got to sing
For life

If you'd only cut
So no doubt the blade is deep
If you don't eat yourself
You will explode instead

Cause i know i love you so
When I know you don't love me
you were the last alone
Get wicked, did it come

Who will I be when I'm with you again
Silver jet in the sky
You are the pain
Got a song, got to sing
For life
