

## Lovely Head

Goldfrapp

It starts in my belly  
Then up to my heart  
Into my mouth, I can't keep it shut  
Do you recognise, the smell  
Is that how you tell us apart

I fool myself to sleep and dream  
Nobody's here  
No-one but me  
So cool  
You're hardly there  
Why can't this, be killing you

Frankenstein would want your mind  
Your lovely head  
Your lovely head

Your lovely head
