

Slide In

Goldfrapp

You send me just colours
I'm waiting, don't hold back

Trees bow to the wind and
I'm falling inside you

Slide in, feel the future
Rushing slowly
Right now

So close I could touch it
I'm dreaming, don't wake up

Slide in, feel the future
Rushing slowly
Light now

Nothing makes me feel like
Show me real love
Right now

You send me just colours
You send me just colours

Slide in, feel the future
Rushing slowly
Light now

Nothing makes me feel like
Show me real love
Right now
