

Twist

Goldfrapp

Before u go and leave this town
I want to see you one more time
Put your dirty angel face
Between my legs and knicker lace

Fight me, try me
Kiss me like u like me
Twist it round again and again
Twist it round again and again

I want to run away with u
Your caravan and rabbit stew
Don't but me candy floss or bears
Swarfega fingers I want you there

Fight me, try me
Kiss me like u like me
Twist it round again and again
Fight me, try me
Kiss me like u like me
Twist it round again and again
Twist it round again and again

Ride me, try me
Kiss me like u like me
Twist it round again and again
Fight me, try me
Kiss me like u like me
Twist it round again and again
Twist it round again and again
Twist it round again and again
