

# Monkey Love

Goldie Lookin' Chain

HI

My name is Renee Laloo

And im gonna sing a song for you about love an how love can tear you apart

It was a night like any other in this town

I took a bus to take a look around

I wanted romance, I wanted someone just like you

But you were locked up in bristol zoo

It was the summer maybe back a year or two

On my first day trip to the zoo (zoo)

Thats when I saw you, I caught your brown eyes watching mine

My heart lit up at feedin' time (time)

I knew from that moment onwards, you had to be mine

I made a vow to set you free

Together we could live in the forest and be

Eatin' berries an kissin each other (forest an be)

It wasn't natural, i knew this romance was so true

I had to love you, I had to hold ya in my arms

But we were parted by bars (aah)

And so I stuck round, waited 'till the dead of night

I climbed the enclosure with you (oooo)

I put a wig on, your head to make you look so nice

I bought a dress an high heels too (tooooo)

We had a meal, fresh fruit by candle light

An then we made love till two oooooo

I love the monkey

An then he fucked her

I love the monkey

An then he fucked her

I love the monkey

An then he fucked her

I love the monkeeeeyyyyy an then i fucked her

You see, theres someone special in my life

Someone I hold very close to my heart

But we could never be together in a crazy world like this

'Cuz the woman of my dreams just happens to be a monkey...

Locked up in bristol zoo

We made a dummy, from boxes an banana skins

And told the keeper it was you(oooooo)

We walked away, hand in hand across the park

And then went back home just to screw (screwwoooooo)

I love the monkey

An then he fucked her

I love the monkey

An then he fucked her

I love the monkey

An then he fucked her

I love the monkeeeeyyyyy an then i fucked her

Finally, me an Jolene were together  
For the first time in months, she saw the outside world  
She saw beautiful people, beautiful places  
But she saw my love in its physical form  
Which she enjoyed the most  
Untill the authorities came an took her away  
And i got given that injection to stop me gettin' rabees  
I love her and i still think about her  
And maybe somewhere out there, shes listenin
