

## Sister

### Goldie Lookin' Chain

it's been coming for months I got something to say  
we're breaking up and there's no easy way  
this situation i never anticipated  
how was i supposed to know you was related?  
she's older, she's fitter and her tits are bigger  
and she makes me laugh it's not all about the figure  
i got this problem like a wart or a blister  
truth is  
I wanna fuck your sister

If you leave me now can I fuck your sister?  
And your best friend.  
If you leave me now can I fuck your sister?  
And your best friend.

We had fun for a while but I shouldda seen it comin  
There's no more smiles, no more songs not even humming  
Truth is I always knew it was there  
The way we kissed and you left me with a blank stare  
Don't want the pain, so I think we ought to act  
You want to leave and your suitcase is packed  
It breaks my heart but the truth has been said  
It's the end of the day so let's jus put this to bed  
Good luv I hope you find a perfect Mister  
But now you're gone can I please fuck your sister?

If you leave me now can I fuck your sister?  
And your best friend.  
If you leave me now can I fuck your sister?  
And your best friend.

Thing is, you look like her, but like a wonky version or something

Well yer minds made up and your bags are packed  
But I've got something with your sister you and me always lacked.  
Like Locomotive's "CHOO CHOO!"  
I've run out of track  
Yer sisters fit as fuck & your Vadge has gone slack  
I still like you  
But your sis gets the prize  
I was surprised  
She opened up all three of my eyes  
She's the cherry on my cake  
The sausage roll round my meat  
When I'm spread eagled on your sister it's a sexual treat.

Times they are a changing, that's what Bob Dylan said  
You put your clothes back on and take your sisters off instead  
I'll make it easy we can use a hotel  
That way in the morning you won't suffer from the smell  
Of our love, united, two as one  
Your sister is the reason that I'm writing this song  
it's not revenge, anger or frustration  
If I'm the reactor then she's the radiation  
Like two plus two it's gonna equal four  
With you around it's three So please walk out the fucking door

If you leave me now can I fuck your sister?  
And your best friend.  
Gonna dump you now cos yer sisters' fitter.  
And so's your best friend.

Thing is, you knows I loves you, but your mouth smells funny when I fuck you

So, you think I'm crap in bed?  
Well let me have a go with your sister instead  
You knows I loves you  
You knows it's true  
But the thing is, I loves your sister too.  
You think me dating your sister is weird  
I told 'em all down the pub and they cheered  
If I were you I'd be more concerned with my brother  
He's having sex with your mother

If you leave me now can I fuck your sister?  
And your best friend.  
If you leave me now can I fuck your sister?  
And your best friend.
