

## Bring It On

Gomez

If I was inordinately different  
Than what you say  
I'd lie, I would lie  
If you could release me now  
You know that I won't hesitate  
To lie, I would lie

Bring it on, make it right  
Bring it out, to the light  
Pick me up, satellite  
If it's wrong, make it right

If I lied and told you that  
You're difficult or hard to take  
I'd lie, I'd still lie  
If you tried to please me now  
You know that I won't remonstrate  
But lie, I would lie

Bring it on, make it right  
Bring it out, to the light  
Pick me up, satellite  
If it's wrong, make it right

We like quiet nights on the island  
Weave battered stars round our heads  
We can reach new heights in this silence  
We're dragged slowly towards the edge

Bring it on, make it right  
Bring it out, to the light  
Pick me up, satellite  
If it's wrong, make it right

Bring it on, make it right  
Bring it out, to the light  
Pick me up, satellite  
If it's wrong, make it right

If I was inordinately different
