

Moon And Sun

Gomez

When you look to the future
Don't forget to write to me
When you last fail to wonder
Don't regret I broke the seam
'Cause the night is so serene just add kerosene

We always felt so good together
The days just rolled on by
Moon and sun, we all move on

The nights in the sand dunes
Carefree days and summer sounds
It's the way we built you
That house just won't come down
My faults, my feeble ways, my better days

We tried to hide from failure, the weather
We said we'd never fight
Moon and sun, what's done is done
Moon and sun, we all move on

Did you say someday?
Did you say you try?
Did you say you love me?
Don't ask why

'Cause we always felt so good together
But the days just rolled on by
Moon and sun, we all move on
We all move on, we all move on, we all move on
