

Walking over the same ole grass  
Trying to stay off the beaten path  
I don't need to apologize  
For the things I don't recognize

Artie, take a look at me  
And I want to think about all the little things  
That piss you off about me

Hey there man  
I'll take and scratch your cat  
But I'll apologize for all the little things  
That piss you off about me

Walking over the same ole ground  
Thinking 'bout all the things we found  
I don't want to let it bring me down  
I'm wantin' out of this dirty town

Artie, take a look at me  
I might not want to think of all the little things  
That piss you off about me

Walking over the same ole grass  
Trying to stay on the beaten path  
I don't need to apologize  
For the things I don't recognize

Walking over the same ole ground  
Thinking 'bout all the things we found  
I don't want to let it bring me down  
I'm wantin' out of this dirty town

You, you, no, no,  
Don't do, don't do, don't do anything, anything irrational  
Here's the starting line  
What happened?
