

Become

Goo Goo Dolls

So much more about you that you never let them see
You turn away
But not to me
I know how they tried to take you
Held you up and meant to break you down
But you can't be
For so long I tried to reach you
I know I'm almost there
I'm close enough for you to see

You've been hiding in the shadows
Have you forgotten how we used to dream
Let me remind you
The light doesn't blind you at all
It just helps you see
Can you see

Yeah you have become
Yeah you have become beautiful
