

## Close Your Eyes

Goo Goo Dolls

I wish I had a saxophone  
I'd play the blues 'til you came home  
With a little sadness in your eyes

Now that all my time was spent  
In the walk your heaven sent  
Thinking 'bout all the nights you cried

Had a certain passion  
And I had silly dreams  
A look of vicious actions  
Don't close your eyes to me  
Don't close your eyes to me  
Oh, don't close your eyes to me  
Don't close your eyes to me

I wish I had a camera lens  
To film the things my mind had said  
Before they reached my mouth and got all bad

Looking at the skies of blue  
All day long, I think of you  
Even after all the shit we've been through

Had a certain passion  
And I had silly dreams  
A look of vicious actions  
Don't close your eyes to me  
Don't close your eyes to me  
Please don't close your eyes to me  
Don't close your eyes to me  
Oh, don't close your eyes to me  
Close your eyes to me  
Close your eyes to me  
Eyes to me  
Close your eyes to me  
Don't close your eyes to me  
Close your eyes to me  
Close your eyes to me  
Don't close your eyes to me  
Eyes to me
