

Come On

Goo Goo Dolls

Come on and show me
Just what you mean to me
Come on and show me
Your daily atrophy
Come on and show me
Just what I mean to you
Come on and show me
Just what you are
Come on and hold me
Just like you used to do
Come on and squeeze me
When I make love with you
Come on and show me
I picked out who you are
Come on and blame me
I like it now

Come on and stroke me
Just like you whip your bat
Come on and show me
I ain't seen nothing yet
Come on and show me
I don't know where I'll go
Come on and show me
I want to know!
