

## Flat Top

Goo Goo Dolls

Flat top intervention  
Bringin' home the new invention  
See it there in pieces on the ground

A television war between the cynics and the saints  
Flip the dial and that's whose side you're on  
A-sleeping on the White House lawn ain't never changed a thing  
Just look at all the washed out Hippie dreams

And it's fallin' all around us  
Is this some kind of joke they're trying to pull on us?  
Fallin' all around us  
I'll turn my head off for a while

The tabloid generation's lost  
Choking on it's fear  
Used to be that's all we had to fear

And conscience keeps us quiet while the crooked love to speak  
There's knowledge wrapped in blankets on the street  
A visionary coward says that anger can be power  
As long as there's a victim on TV

And it's fallin' all around us  
Is this some kind of joke they're trying to pull on us?  
Fallin' all around us  
I'll turn my head off for a while

And my dirty dreams all come alive on my TV screen  
And assasination plots show me what I haven't got  
Show me what I love, and who I'm supposed to be  
Show me everything I need  
Show it all to me  
Show it all to me

And it's fallin' all around us  
Is this some kind of joke they're trying to pull on us?  
Fallin' all around us  
I'll turn my head off for a whi-i-i-i-ile
