```
I wake up, I'm staring at the clock
My belly hurts and my head is like a rock
I get up to see what I can see
Furthest I got was my black and white TV
Eyewitness News brought to you at noon
Oh my God, guess I got up too soon because
```

- Oh, I feel like laughing Oh, I feel like laughing Oh, I feel like laughing All because of you All because of you
- I didn't mean to wear this disguise
 But I can't stand the look in my eyes
 Oh, I didn't mean to lie
 I was doing what I thought was right
 Come on, walk right down the line
 You'll be walking 'til the end of time because
- Oh, I feel like laughing Oh, I feel like laughing Oh, I feel like laughing All because of you All because of you
- Oh, I feel like laughing Oh, I feel like laughing Oh, I feel like laughing All because of you All because of you
