

Life's a Message

Goo Goo Dolls

Don't cry because it's over now
Smile because it was ours
Keep your feet firm on the ground
Your eyes fixed on the stars
'Cause it never mattered who you are

Make your life a message
And bring light to all you see (to all you see)
And make your words a message
That will be (that will be)
A blessing coming back to me
Make your life a storybook
With no apologies (no apologies)
Make your life a message
And you'll be (and you'll be)
A blessing coming back to me
Ahhh-ahhh-ahhh

All I know of life and love
I wrestled into words
Rest assured that life goes on
And moves on its own terms
So be careful 'cause it might just burn

Make your life a message
And bring light to all you see (to all you see)
And make your words a message
That will be (that will be)
A blessing coming back to me
Make your life a storybook
With no apologies (no apologies)
Make your life a message
And you'll be (and you'll be)
A blessing coming back to me

Life's a message
Life's a message
Life's a message (life's a blessing)

Life's a message
Life's a message
Life's a message (life's a blessing)
