

Lucky Star

Goo Goo Dolls

If I could walk a straight mile
I could write it down in shorthand
I could show you
If you want me to

And if I had an hourglass
I'd save the grains of time I spent with you
And that's what I'd do
But I remember

You always said it could be great
And I knew it could be

Well there's a way you look at things
That no one needs to know but you
And you shout em with me

Like every time the leaves would fall
You'd promise me that they'd be back again
And I believed in you

You always said it could be great
But I hadn't time to waste
Now it seems that I've gone too far

As bright as you are
Don't get burned by your lucky star
Bright as you are
Don't get burned by your lucky star

Written down in hard-bound books
The way things used to be ain't for me
I'd swear they're all for you

Ri said sugar, gram said shoot
Her mom said shit I don't know what she'll do
As if it's up to you

But I remember
You always said it could be great
But I hadn't time to waste
Now it seems that I've gone too far

(The rest till the end is

As bright as you are
Don't get burned by your lucky star
Bright as you are
Don't get burned by your lucky star

Your lucky star will burn out
Your lucky star can turn you around
Your lucky star will burn out
Your lucky star can turn you around

Turn you around

Turn you around
Turn you around
Turn you around
They're gonna turn you around
