## **No Way Out**

Goo Goo Dolls

I've been around And I realize it's always the same All the time And I realize it's all been unchanged What I find And you realize there's no one home There's no way out When you realize you're all alone Some say, there's no way out Here today, there's no way out Every time I'm walking down by Delaware Park You rarely hold my hand when it's after dark And all of the places that we go and the things that we have seen [Chorus] There's no way out There's no way out Some say And you realized that time goes by And I'm still in the way And you realized you're still alive Alive today And you realize you're not gonna die Ever the same And you realize the sun goes by Some say, there's no way out Here today, there's no way out Every time I come a-knockin' at your door You tell me to turn away, pal you're too poor I ain't a rich boy, I've heard about all that All the places that I go it's ching ching ching [Chorus] And I realize it's always the same And I realize it's all been unchanged And you realize there's no one home When you realize you're all alone (screaming throughout the above phrase) Every time I'm waiting for you in the rain My mom says our love is sunk in a God damn vein I stand around and I think it's gonna work But you look at me like I'm a jerk, oh! [Chorus: x4]
