

## Strange Love

Goo Goo Dolls

You're likin' what I say  
Guess I was afraid you'd run away now  
I'm loyal like a stray  
Never gonna turn and run away now  
A passion junkie's fix is never satisfied  
You're never gonna break his heart so have some fun abuse it

Strange Love  
You're a Strange One

You washed away your yesterday  
I saw you cleanin' up  
A bucket full of doubts  
And a little bit of power grabbin'  
When it's all done  
What are you gonna do  
With you

A passion junkie's dog ain't got a collar on  
He's never gonna break so go ahead and shake him

Strange Love  
Breaks Us Down  
Strange Love  
Though nothing's gonna break us now

And you're actin' suprised  
Oh, all of the time  
Into your charms  
Slips my life

Strange Love  
Breaks Us Down  
Strange Love  
Though nothing's gonna break us now
