## **Strange Love**

**Goo Goo Dolls** 

You're likin' what I say Guess I was afraid you'd run away now I'm loyal like a stray Never gonna turn and run away now A passion junkie's fix is never satisfied You're never gonna break his heart so have some fun abuse it

Strange Love You're a Strange One

You washed away your yesterday I saw you cleanin' up A bucket full of doubts And a little bit of power grabbin' When it's all done What are you gonna do With you

A passion junkie's dog ain't got a collar on He's never gonna break so go ahead and shake him

Strange Love Breaks Us Down Strange Love Though nothing's gonna break us now

And you're actin' suprised Oh, all of the time Into your charms Slips my life

Strange Love Breaks Us Down Strange Love Though nothing's gonna break us now
