

Think About Me

Goo Goo Dolls

You take a lot of chances with your feelings
No one really knows what you feel
And fiction is the only way you're dealin'
You turn your pretty head if it gets real

Oh you (oh you)
You take it so slowly
And your eyes (and your eyes) look so lonely
But it's only when you think about me
Oh yeah
When you think about me
Think about me

And I got head don't let me sleep
And you got secret I can't keep
You see a little stranger in your mirror
The girl you never knew is what you fear

Oh you (oh you)
You take it so slowly
And your eyes (and your eyes) look so lonely
But it's only when you think about me
Oh yeah
When you think about me
Think about me

All you want is something I can't be

All you want from me is what you need
And I'm saying

Oh you
You take it so slowly
And your eyes (and your eyes)
Look so lonely
But it's only (but it's only)

Oh you (oh you)
You take it so slowly
Now it's only (now it's only)
'bout me
When you think about me
Think about me
Oh when you think about me
Oh yeah
When you think about me
Oh yeah
Think about me
Yeah when you think about me
