

# California (The Way I Say I Love You)

Good Charlotte

Does the sun shine on you everyday  
Wherever you are  
Remember California, the things that we'd say  
How special you are  
And when you're sad, sad, sad  
Does anyone listen?  
Do you feel like a diamond?  
I hope you feel like a million

Just forget the ones who let you go  
Forget the ones too scared to know you

I'll be waiting here  
To show you how to come back home  
Some things never change  
Like the way I say "I love you"  
And even when you still need time to grow  
If that's the only way you'll know  
That some things never change  
Like the way I say "I love you"

I hope it's summertime wherever you are  
You're under the stars  
Don't forget California  
She's always there waiting for you  
And when it gets bad, bad, bad  
When life just gets so heavy  
Remember that you're happy  
Don't forget to take it easy

And forget the ones who let you go  
Forget those ones, yeah they don't know you

I'll be waiting here  
To show you how to come back home  
Some things never change  
Like the way I say "I love you"  
And even when you still need time to grow  
If that's the only way you'll know  
That some things never change  
Like the way I say "I love you"

And I watch you come and go  
Yeah, these changing tides are all  
I've ever really known I've told you  
And you run through lives unknown  
But one thing you can always count on  
I will always love you  
I'll spend my lifetime trying to show you

I'll be waiting here  
To show you how to come back home  
Some things never change  
Like the way I say "I love you"  
And even when you still need time to grow  
If that's the only way you'll know  
That some things never change

Like the way I say "I love you"

Right through these unknown moments  
Life's tides come and go  
Right through these unknown moments  
Life's tides come and go
