

Cars Full of People

Good Charlotte

Right now I don't know where to begin
It feels like you are my only friend
And all of my dreams are hard to come by
But I still believe if you're by my side

They say, where are you going?
What are you thinking?
What are you talking about?

These cars full of people, they're all going somewhere
They're racing the clocks but still getting nowhere
They're late or they're early, the world keeps on turning around
They said we were lost, that we had no future
But you said hold on, and we stayed together
These cars full of people, they'll never know what we're about

You said we could fly above the oceans
And beat all the odds that stand in between
From far away the world will see
We're on our own, just you and me

They say, where are you going?
What were you thinking?
What are you talking about?

These cars full of people, they're all going somewhere
They're racing the clocks but still getting nowhere
They're late or they're early, the world keeps on turning around
They said we were lost, that we had no future
But you said hold on, and we stayed together
These cars full of people, they'll never know what we're about

Like you, like you
These cars full of people, watch how they all come around

They come and go, yeah, you know how the story goes
Oh-oh-oh
Back and forth, round and round, is that the life you chose?
Oh-oh-oh
They come and go, yeah, that's just how the story goes
Oh-oh-oh

These cars full of people, they're all going somewhere
They're racing the clocks but still getting nowhere
They're late or they're early, the world keeps on turning around
They said we were lost, that we had no future
But you said hold on, and we stayed together
These cars full of people, they'll never know what we're about

Like you, like you
These cars full of people, watch how they all come around
