

Keep Swingin'

Good Charlotte

I had nothing to say
And I could never fake it
So I just stood by
And I watched all them take it
Did we lose our way?
Did we learn how to shake it?
All that shit that fucks you up
We learn to laugh it off and just walk away

'Cause you know they ain't got no soul now
Even when they said we sold out
We keep swingin' and we all just go down
Saying and playing what we think
'Cause you know they ain't got no soul now
Even when they said we sold out
We keep swingin' and we all just go down
Saying and playing what we think

You and I will work it out somehow
Come on, come on
Take a look on your face
Yeah, I know what you're thinking
So should I even waste my time?
Stop the words before they sink in
You know you're all the same
And you're never gonna change
While artists sell their souls
For dollar bills and empty spaces

'Cause you know they ain't got no soul now
Even when they said we sold out
We keep swingin' and we all just go down
Saying and playing what we think
'Cause you know they ain't got no soul now
Even when they said we sold out
We keep swingin' and we all just go down
Saying and playing what we think

I'm not gonna spend the day
Thinking about whatever happened yesterday
No I don't want whatever let it slip away
'Cause we've been gone a while but now we're here to stay
We're here to stay

And you know they ain't got no soul now
Even when they said we sold out
We keep swingin' and we all just go down
Saying and playing what we think
'Cause you know they ain't got no soul now
Even when they said we sold out
We keep swingin' and we all just go down
Saying and playing what we think

You and I will work it out somehow
Come on, come on
You and I will work it out somehow
Come on, come on
